

School Engagement

provides free, bespoke support enabling you to:

Create a talent pipeline

Inspire, influence & grow key future skills

Develop brand & sector awareness

Improve, diversity, inclusion & social mobility

Develop staff skills

Attract future talent, inspire young people & improve diversity & inclusion in your business.

Activities For Students

We support you to create purposeful activities for students. These could be an introductory chat, skills or sector initiatives, workshops, challenges, an insight day or a virtual work experience.

Support with Content

We provide ongoing business support with activity structure and content, staff training & the delivery of the activity. The activities can be virtual, face to face or a hybrid.

Links to Schools & Colleges

We offer brokered support from the WECA Careers Hub in order to give you access to 95 secondary schools and colleges (including SEND & PRUs) in the region.

For more information, please contact Jane Yorke

Workforce For The Future

By registering your interest for School Engagement, you will not only benefit from our support, you also have to access to all the partners in the **Workforce For the Future** programme. Our partners include Adviza, Bristol City Council, Bath College, Business West, City of Bristol College, Leonard Cheshire, National Composites Centre, University of the West of England, Western Training Provider Network, Weston College & YTKO.

Workforce for the Future is a programme designed to help small to medium-sized enterprises to identify and address their future skills needs through business diagnostics and by upskilling and retraining employees. There is also support to source and bring in new staff, including apprentices or placement-ready students in order to develop the future workforce.
